Why

we do what we do?

A black and white photograph of a young boy sitting at a desk. He is looking off to the side with a thoughtful or serious expression. On the desk in front of him are several books and papers. The background is a plain, light-colored wall.

Our mission

***is to improve the quality and
equity of the education in
Mexico***

And we believe that every child in Mexico needs access to a quality education in order to build their own future and change their lives.

How
do we do it?

We empower the teachers so that they can integrate technology into their classes; this is done by the support of a trainer who is present in the school for one school year.

What
do we do?

We develop digital skills within the teachers and students.

We equip media labs with technological devices.

We develop critical thinking in students.

We provide access to digital educative contents, advice and technical support.

Where

do we do it?

In public schools in Mexico

Urban school

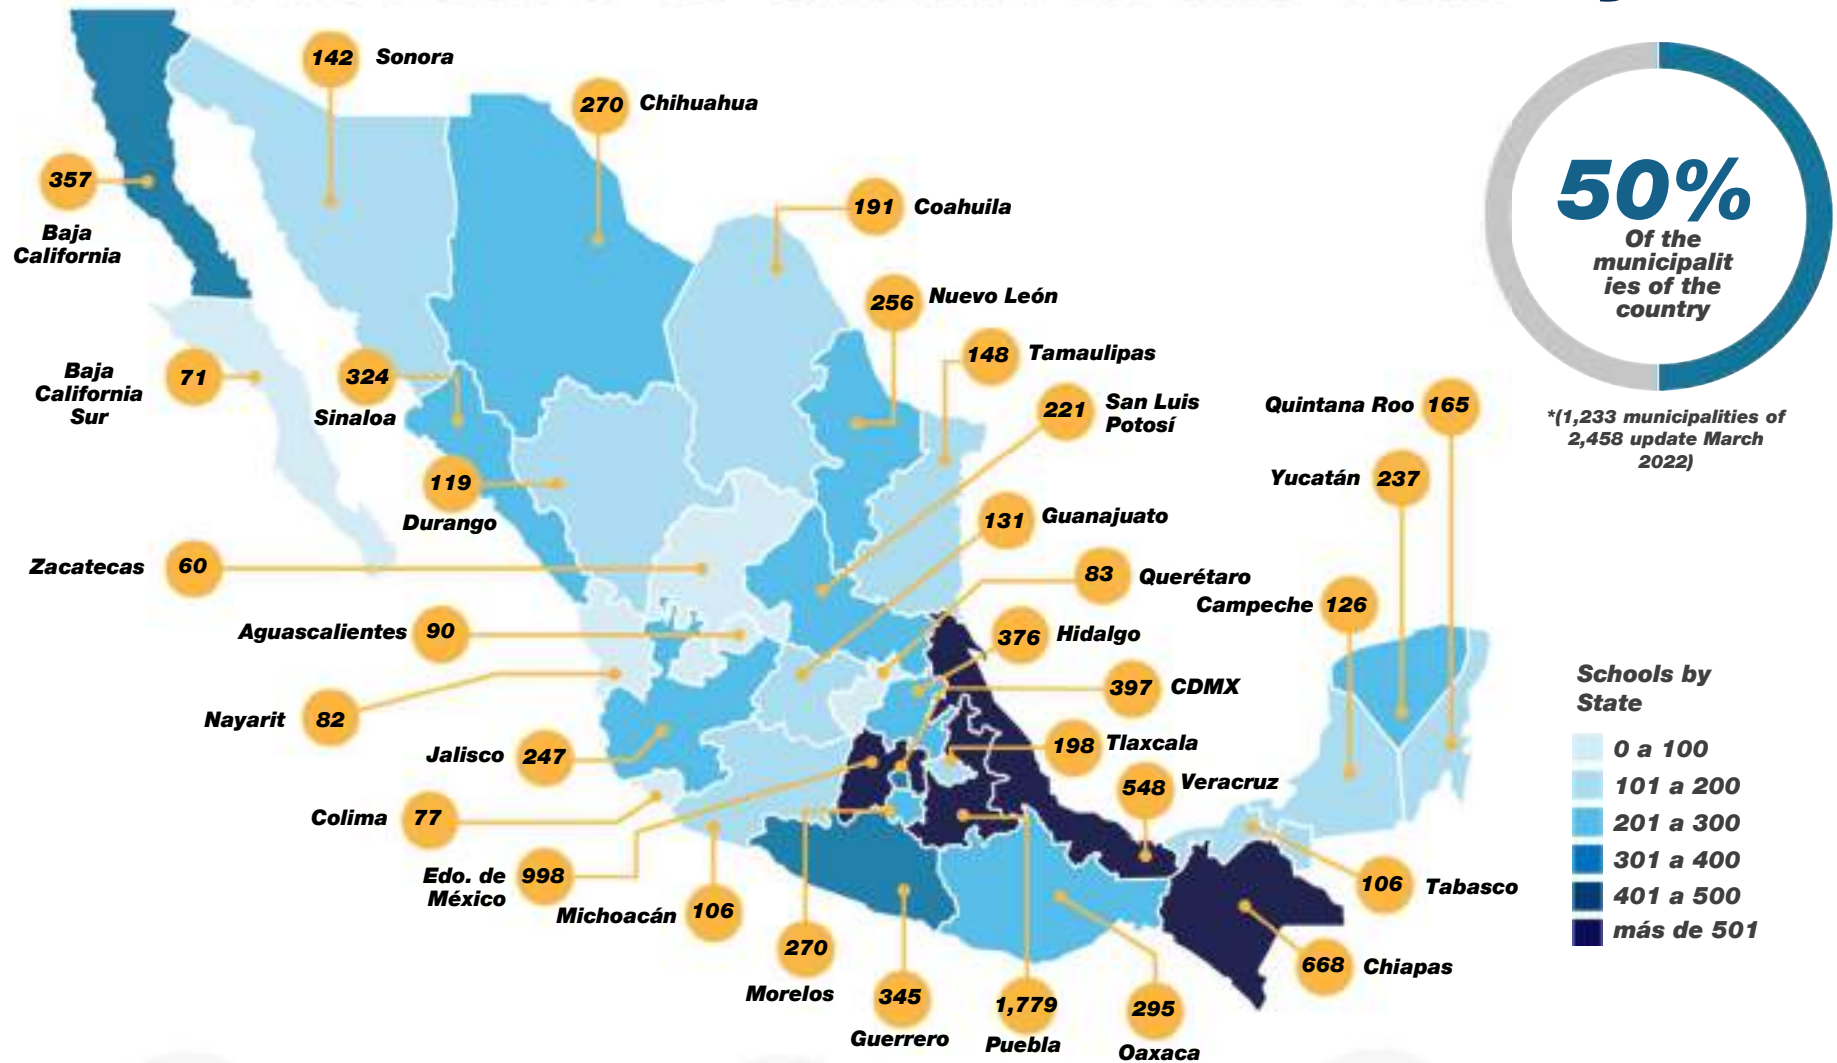

Rural school

Indigenous school
